Turate - Italy

Valve & Actuator Independent Distributor

TUV CE

**Lloyd's
Register**

Approvals held within the Score group of companies.

Operational Area

Score (Europe) Limited - Turate

The Turate office in Northern Italy opened its doors in 2006. The facility's primary focus is to utilise the experience and capabilities of Score Group Limited in its field of expertise into Continental Europe, Russia and Mediterranean countries.

Although still active in the historical market sector of Score which is upstream and offshore platforms, the Turate office has developed a specific know-how in downstream, refinery and power plant becoming one of the main hub for this product for the Group.

The Turate facility has office space, warehouse and fully equipped workshop including Hydro and HP Gas testing capability. The facility offers a range of service solution including:

- Valve and actuator supply
- Specialized independent testing
- Valve automation packages
- Valve project management
- Valve overhaul and repair

Since 2006 we have spread the good reputation of Score in more countries and today we are proud to have frame agreements for valve distribution, procurement and repair with major operators in Europe.

Several top class EPC contractors use our services for procurement of special valves or for urgent requisition like at the end of a project with satisfaction of our Valve Project Management capabilities.

Valve & Actuator Distribution

Product Supply

With an extensive inventory of over 100,000 valves, Score can deliver fast and efficient lead times for the most urgent of supply. When a valve is not urgent or not available in our stock, we have a wide selection of approved suppliers capable to complete our best technical and commercial offer in compliance with client requirement and specification. Our workshop capabilities allows us to carry out additional value added services such as pressure testing, fugitive emission testing, painting, NDT, valve automation and special packing which may not be available from other suppliers.

Score is an independent valve distributor and as such our stock has the widest variety of brands available on the market in order to always give the best technical solution and ensure compliance with our client vendor list.

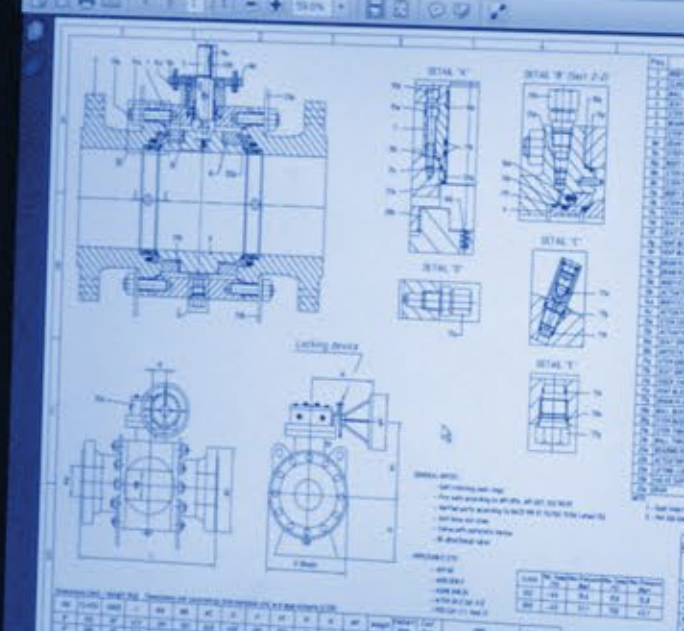

Most common valves supplied from stock are ball (floating and trunnion), check (wafer dual plate, swing and piston), gate, globe and butterfly (soft or metal seated). We also stock pneumatic and hydraulic actuators with heavy duty scotch yoke design or more compact rack and pinion. This is completed with stock control panels made with major brands components.

A small part of our stock is visible at www.valveenquiries.com. For more information, please contact us.

Score in Turate has also been entitled as preferred distribution company for several famous brands like Emerson (Bettis, Hytork, Elomatic) and Omnivalve (DBB fiscal Plug valves).

Valve Project Management

Valve Project Management

Fully independent from all manufacturers and their agents, Score provides impartial technical support and valve project management solutions for all types of requisitions. The range of services the company provide means that they can effectively aggregate in one single supplier a variety of department services.

Our Turate site has developed specific skills in the following:

Score Group Capabilities

Score (Europe) Limited is part of the Score Group of companies. Founded in Peterhead in the North East of Scotland in 1982 to provide valve repair and supply services to the UK oil and gas industry; today Score Group Limited hosts a global network of facilities in over thirty countries, providing engineering services across five continents within a range of sectors including oil & gas, nuclear and marine.

Valve sales and services remain at the forefront of the company's operations with Score (Europe) Limited boasting the largest stock of valves and actuators in the world.

The range of valve services offered by Score Group has evolved from valve repair and supply to the concept of Total Valve Management – one company providing a full range of services including repair, supply, testing, engineering support, valve diagnostics, condition monitoring, inventory management and training to valve users operating in the energy, utilities, marine and manufacturing sectors.

The range of services that are offered by Score Group Limited include:

- Valve & Actuation Sales & Services
- Valve Diagnostics
- Valve Condition Monitoring
- Industrial Gas Turbine Services
- Gas Turbine Fuel Systems & Accessories
- Engineering & Design Consultancy
- Subsea Valves & Equipment
- Enhanced Testing
- Hydraulic Services
- Valve Related Training
- Specialist Coatings
- Cell Disruption

In 2018 the Group employs over 1700 people. As a company Score Group Limited is deeply committed to the training of its personnel and runs a multi award winning apprenticeship scheme.
