Brighthouse

Total Valve Management Solutions

Local Service Global Provision

The leading single source provider for valve services with unrivalled expertise, experience, facilities and stockholding in the European valve market.

Score (Europe) Limited - Brighouse

Score (Europe) Limited is the leading single source provider for valve services in the European market. Founded in 1982, the company has over 30 years of experience in the supply, repair, modification and testing of valves and actuators for the global oil, gas, power and petrochemical industries.

Today, the company operates a global network of facilities and the Brighouse Repair and Sales facility opened its doors in September 2006. Initially, the location's primary focus was to provide testing, repair and storage facilities to serve the Score Europe network of customers. Its central location and close ties to local motorway systems make the 4950 square metre facility an ideal location for the supply and repair of valves.

Growth within the company means that the scope of operations at Score Europe's Brighouse site has expanded. The facility boasts an extensive in-house valve and actuator stock as well as providing a full range of services including:

- Sales & Technical Support
- Control Valve Diagnostics
- Pressure Testing
- Design & Manufacture
- Field Service
- Inspection & Expedition
- Engineering Support

Valve Service and Sales Provision

Fully independent from all manufacturers and their agents, boasting the largest valve inventory in the world and a strong experienced team of over 1000; Score can deliver fast and efficient lead times for the most urgent supply or repair requirements.

With dedicated departments specialising in material selection, enhanced testing, quality assurance and highest quality finishing all based onsite in Brighouse, we can test and modify to meet any specifications.

Total Valve Management

Offering a comprehensive range of on-site or off-site valve upgrading, reconditioning, repair, modification and overhaul programmes.

Intelligent Valve Management™

From the moment of your initial enquiry our specialist sales teams will aim to provide the Intelligent Valve Management solutions that you require. Quality and Safety

At Score (Europe) Limited we recognise that the quality of the products we stock and supply is critical to the safety of every one of our customers' operations. As a result, each of our valves are processed and supplied in accordance with our stringent Quality Management System.

Score Group Capabilities

Score (Europe) Limited is part of the Score Group of companies. Founded in Peterhead in the North East of Scotland in 1982 to provide valve repair and supply services to the UK oil and gas industry; today Score Group Limited hosts a global network of facilities in over thirty countries, providing engineering services across five continents within a range of sectors including oil & gas, nuclear and marine.

Valve sales and services remain at the forefront of the company's operations with Score (Europe) Limited boasting the largest stock of valves and actuators in the world.

The range of valve services offered by Score Group has evolved from valve repair and supply to the concept of Total Valve Management – one company providing a full range of services including repair, supply, testing, engineering support, valve diagnostics, condition monitoring, inventory management and technical training to valve users operating in the energy, utilities, marine and manufacturing sectors.

The range of services that are offered by Score Group Limited include:

- Valve & Actuation Sales & Services
- Valve Diagnostics
- Valve Condition Monitoring
- Industrial Gas Turbine Services
- Gas Turbine Fuel Systems & Accessories
- Engineering & Design Consultancy
- Subsea Valves & Equipment
- Enhanced Testing
- Hydraulic Services
- Valve Related Training
- Specialist Coatings
- Cell Disruption

In 2015 the Group employs over 1700 people. As a company Score Group Limited is deeply committed to the training of its personnel, employing over 300 apprentices within the Group worldwide.
