Local Service Global Provision

The leading single source provider for valve services with unrivalled expertise, experience, facilities and stockholding in the European valve market.

Score (Europe) Limited - Glenrothes

Score (Europe) Limited is the leading single source provider for valve services in the European market. Founded in 1982, the company has over 30 years of experience in the supply, repair, modification and testing of valves and actuators for the global oil and gas industries.

Today, the company operates a global network of facilities and the Glenrothes Global Logistics Hub in Fife opened its doors in June 2013. Initially, the Hub's primary focus was to provide additional testing and storage facilities to serve the Score Europe network of customers. Its central location and close ties to local motorway systems make the 4000-square metre facility an ideal location for the worldwide distribution of valves.

Growth within the company means that the scope of services the Hub can provide has expanded. The Glenrothes facility, in the heart of Fife, now offers a range of valve services including:

- Sales & Technical Support
- Extensive In-House Valve & Actuator Stock
- Pressure Testing
- Field Service Centre
- Inspection & Expediting Services

Valve Service and Sales Provision

With an extensive inventory of over 100,000 valves, Score can deliver fast and efficient lead times for the most urgent of supply or repair requirements. The unique Total Valve Management package allows Score to offer a full complement of valve maintenance solutions.

With a strong, experienced team of over 1000, the company's expertise, experience, facilities and stockholding in the European valve market are second to none.

Total Valve Management

Offering a comprehensive range of on-site or off-site valve upgrading, reconditioning, repair, modification and overhaul programmes.

Intelligent Valve Management™

From the moment of your initial enquiry our specialist sales teams will aim to provide the Intelligent Valve Management solutions that you require. With the largest valve inventory in the world, Score can supply any valve type. With dedicated departments specialising in extensive material selection, enhanced testing, quality assurance and highest quality finishing all based onsite in Glenrothes we can test and modify to meet any specifications.

Our Glenrothes site holds the following facilities, equipment, capabilities and services:

Stock Management

- Main stockholding facility for valves up to 8"
- 1500+ pallet location warehouse
- Computerised carousel stockholding solution comprising over 3000 valves
- Immediate access to Score's inventory of over 100,000 valves and actuators

Facilities and Equipment

- Hydrostatic test cells testing up to 10,000 psi
- Nitrogen test cells testing up to 6400 psi
- High specification paint shop, blasting booth and drying room
- Single clamp horizontal test rig
- High quality finishing department
- Triple mast test rig capability

Valve Project Supply

Providing a comprehensive single source project valve supply service which can effectively meet the needs of your project.

Service

- Customer service available 24 hours a day, 365 days a year
- Prompt turnaround and distribution times nationwide
- Dedicated technicians, sales and inspection teams

Quality and Safety

At Score (Europe) Limited we recognise that the quality of the products we stock and supply is critical to the safety of every one of our customers' operations. As a result, each of our valves are processed and supplied in accordance with our stringent Quality Management System.

Score Group Capabilities

Score (Europe) Limited is part of the Score Group of companies. Founded in Peterhead in the North East of Scotland in 1982 to provide valve repair and supply services to the UK oil and gas industry; today Score Group Limited hosts a global network of facilities in over thirty countries, providing engineering services across five continents within a range of sectors including oil & gas, nuclear and marine.

Valve sales and services remain at the forefront of the company's operations with Score (Europe) Limited boasting the largest stock of valves and actuators in the world.

The range of valve services offered by Score Group has evolved from valve repair and supply to the concept of Total Valve Management – one company providing a full range of services including repair, supply, testing, engineering support, valve diagnostics, condition monitoring, inventory management and training to valve users operating in the energy, utilities, marine and manufacturing sectors.

Fully independent from all manufacturers and their agents, Score provide impartial advice and solutions for all types of valve supply and maintenance issues.

- Valve & Actuation Sales & Services
- Valve Diagnostics
- Valve Condition Monitoring
- Industrial Gas Turbine Services
- Gas Turbine Fuel Systems & Accessories
- Engineering & Design Consultancy
- PSV Recertification
- Subsea Valves & Equipment
- Enhanced Testing
- Hydraulic Services
- Valve Related Training
- Specialist Coatings
- Cell Disruption
- Field Maintenance

In 2015 the Group employs over 1700 people. As a company Score Group Limited is deeply committed to the training of its personnel and runs a multi award winning apprenticeship scheme.
